Explanation of the Articles of the Calendar.

These pages are calculated for Toronto, Quebec, Fredericton, and Halifax, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto, Quebec, Fredericton, Halifax, and Fort Gerry.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec, Fredericton, Halifax, and Fort Garry.

The column, SUN ON MERIDIAN, gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of longitude 4 h. 46 m. W. When in the column headed Moon's rising or setting, or Moon on meridian, the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for a point in latitude 45° and longitude 4 h. 46 m. W. They are not corrected for parallax or refraction.

The column, UPPER TRANSIT OF POLE STAR shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4 h. 46 m. W. It passes the meridian in the morning from April 9 to October 8, and in the afternoon from October 10 to April 8. On October 9, there are two transits, namely, at 0h 1m 33s a.m. and at 11h. 57m. 37s. p.m.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of its preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the polestar may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

MOON'S PHASES.—This Table gives the times for the four meridians when the moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, i. e. the times when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45° . When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees	-5' 38"	-3' 51"	-1' 59"	0' 0"	+2' 4"	+4' 16"	+6' 35"	+9' 2"	+11' 37"
2nd Correction for each minute of latitude	+1.8"	+1.0"	+2.0"	+2.1"	+2.2"	+2.3"	+2.4"	+2.6"	+2.7"

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45° .

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude $43^\circ 20'$... 1st correction = -3' 51" 2nd correction = $1.9 \times 20 = +0' 38''$
 " " $47^\circ 40'$... " = +4' 16" " " $+2.3 \times 40 = +0' 32''$
 " " $45^\circ 10'$... " = +0' 0" " " $+2.1 \times 10 = +0' 21''$

If the altitude of Polaris above the horizontal plane observed at the time of its meridian transit be corrected for refraction, the latitude of the place of observation will be found by subtracting the polar distance from the altitude so corrected, for the upper transit, and by adding the polar distance to the corrected altitude, for lower transit.

By observing Polaris with a horizontal circle at the time of its upper or lower meridian transit the direction of the meridian may also be found; but as its motion in azimuth at these instants is more rapid than at other points of its course, any error in the time will then produce the greatest possible effect on the azimuth. Near the time of greatest elongation, on the other hand, the change of azimuth is very slow; so that an error in the supposed time of observation will occasion a comparatively small error in the azimuth. On this account the instant of greatest elongation east or west of the meridian is the time most favorable for the determination of the meridian.

Again, as the point of greatest elongation is the one at which the change of altitude is most rapid, any error in the time will produce a comparatively large error in the altitude. Hence this part of the star's path is the worst that could be taken for finding the latitude.

As the transits of Polaris and the times of its greatest elongation often take place when the sky is clouded, or during daylight, several days may sometimes pass without the occurrence of an opportunity favorable for these observations with Polaris.

To remedy to some extent this inconvenience, tables are herewith given which contain the times of transit of two other circumpolar stars, with the intervals between the times of transit and of greatest elongation; and also the azimuths at the same instant.

In order to harmonize with the rest of the Calendar, where the times of transit of Polaris are placed, the transits of that star are given in civil time; for greater convenience, however, the transits of δ and ϵ Ursæ Minoris in the following tables are in astronomical time. For the sake of brevity the times are given for the 1st, 11th, and 21st of each month, and also on those days when two transits take place.

The times of meridian passage on any intermediate day may be found with sufficient accuracy by subtracting the following numbers from the recorded time which next precedes it in the table.

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45°.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a Star, add the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

II.—A partial eclipse of the Sun, May 25, 1873, visible in the eastern parts of Canada in the morning of May 26th (civil time). The eclipse begins on the earth generally, May 25, at 19h 3m Greenwich mean time, in longitude 25° 57' west and latitude 25° 4' north.

The greatest eclipse is at 21h 8.8m, in longitude 90° 46' west, and latitude 63° 54' north: Magnitude 0.899, the Sun's diameter being unity.

The eclipse ends generally May 25, 23h 14.5m, in longitude 131° 13' east of Greenwich, and latitude 52° 57' north.

The line on which the eclipse ends at sunrise crosses the St. Lawrence a little above Montreal.

At HALIFAX the Sun rises partially eclipsed.

Magnitude at sunrise 0.59

Position 31° from northern point of Sun's disc towards the east.

At FREDERICTON the Sun rises partially eclipsed.

Magnitude at sunrise 0.56

At TORONTO the eclipse is not visible.

III.—A total eclipse of the Moon, Nov. 4, which occurs after the Moon has set at most parts of the Dominion. At Victoria, the first contacts with the Penumbra and with the shadow take place just before the Moon sets on the morning of Nov. 4.

IV.—A partial eclipse of the Sun, Nov. 19, 1873, invisible in Canada.

JULY.

Pitch thy behaviour low, thy projects high,
So shall thou humble and magnanimous be;
Sink not in spirit; who aimeth at the sky
Shoots higher much than he that means a tree.

The youth who does not look up will look down;
and the spirit that does not soar is destined perhaps
to grovel.

LETTER RATES, ETC.

Canada.—Letters posted in Canada addressed to any place within the Dominion (including Manitoba and British Columbia) pass, if prepaid, for 3 cents per $\frac{1}{2}$ oz., but if posted unpaid such letters are charged 6 cts. per $\frac{1}{2}$ oz. Letters mailed at any office for delivery by or from that same office, are charged one cent each and must be prepaid, otherwise they are sent to the Dead Letter Office.

Newfoundland.—Postage on letters 6 cents per $\frac{1}{2}$ oz. Newspapers 2 cents each. Prepayment necessary.

Prince Edward Island.—Postage on letters 3 cents per $\frac{1}{2}$ oz. if prepaid, 6 cents if unpaid. Newspapers 2 c. each.

Bermuda (via Halifax).—Letters 6 cents per $\frac{1}{2}$ oz. Newspapers 2 cents each. Printed matter 6 cents per 4 oz.

United States.—The rate on letters to the United States is 6 cents per $\frac{1}{2}$ oz. if prepaid, 10 cents if unpaid. Newspapers 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 3d. stg. per $\frac{1}{2}$ oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails to New York, by which the Postage rate to Canada is 4d. stg. per $\frac{1}{2}$ oz. A Canadian Packet leaves Liverpool every alternate Tues-

day for Halifax, calling at Queenstown en route. Postage 3d. stg. per $\frac{1}{2}$ oz., same as by Canadian Packet to Quebec or Portland.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

WEST INDIES VIA HALIFAX.

Letters for the West Indies, British and Foreign, are sent via Halifax and Bermuda, monthly; postage 12 cents per $\frac{1}{2}$ oz., newspapers 2 cents each; books, 6 cents per 4 oz.

No unpaid correspondence forwarded by this route.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America 2 cents.
On Letters for the United States 5 "
On Letters for the United Kingdom 8 "
On Letters for British Colonies or Possessions, sent via England 16 "
On Letters for France and other Foreign Countries, via France (see Table).

On parcels, patterns, or samples, in Canada, 5 cents

On book packets & newspapers to United Kingdom, 8 cts.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or error, may affect an Unregistered Letter.

PARCEL POST.

The charge on Parcels by the Parcel Post, which is limited to places within the Dominion, is 12 $\frac{1}{2}$ cents per 8 oz. (with 5 cts. additional if Registered.)

BOOK POST.

A Book Packet may contain any number of separate books, publications, works of literature and art, maps or prints, photographs, daguerotypes, when not on glass, or in frames containing glass; any quantity of paper, vellum or parchment (to the exclusion of letters); and the books, maps, papers, &c., may be either written, printed or plain, or any mixture of the three; and may be either British, Colonial or Foreign.

Book Packages must be open at both ends or both sides. The rate on Book Packages between any place in Canada, and to P. E. I. and Newfoundland, is one cent per ounce,

A Packet of Patterns for Germany or Belgium, or any country via Belgium, must not exceed 8 oz. A Book Packet for Greece must not exceed 3 lbs. in weight, nor must it exceed 2 feet in length by 1 foot in width or depth.

Upon Letters, Newspapers, and Book Packets forwarded through the United States, the following additional rates must be collected, viz.:—2 cents per $\frac{1}{2}$ oz. on Letters, 2 cents each on Newspapers, and 2 cents per 4 oz. on Book Packets.

An additional postage of 6 cents per $\frac{1}{2}$ oz. must be collected on Letter, 2 cents each on Newspapers, and 6 cents per 4 oz. on Book Packets and Patterns for places marked thus *a*, when addressed to be sent via Brindisi.

(a) Letters can be registered to Shanghai, in China, and Yokohama, in Japan, by way of the United States, but to no other place in either country.

(b) Printed Prices Current and Mercantile Circulars can, where this letter is prefixed, be forwarded as Newspapers. Books are transmitted as such only where the rate is given; in all other cases they pass as Printed Matter, at the rates specified for that class of matter.

Registration can be effected on correspondence for those places only to which the fee is given.

POSTAGE RATES, ETC., ON PATTERNS AND SAMPLES WITHIN THE DOMINION.

Patterns or samples of merchandise and goods for sale, not exceeding 24 oz. in weight, may be posted in Canada to be forwarded to any place within the Dominion, on prepayment by postage stamp of a rate of 1 cent. per ounce, under the following regulations:

If such rate be not fully pre-paid by the stamps affixed, the Packet is to be rated with the deficient postage and a fine of five cents in addition.

Packets of samples and patterns may be registered on pre-payment by postage stamp of a registration fee of 5 cents in addition to the postage rate, and provided such Packets be handed in to the post office for registration.

Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples however of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The Packet may bear on the outside the address of the sender, in addition to the address of the person for whom it may be intended; also a trade mark and numbers, and the price of the article enclosed; inside, there must be no enclosure but the samples or patterns themselves; the particulars however of the trade marks, numbers and price, may be marked on the articles themselves, instead of on the outside of the Packet, at the option of the sender.

POSTAGE RATES, ETC., ON PATTERNS AND SAMPLES, TO UNITED KINGDOM AND FOREIGN PARTS.

Patterns of merchandise, and samples, may be forwarded between Canada and the United Kingdom, France, Italy, German Empire, Netherlands, Portugal, Switzerland, and Denmark, by the Canadian Packet mails, at book post rates, and subject to the following conditions:

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Samples of seeds, drugs, and similar articles intended for delivery within the United Kingdom, may be sent in bags entirely closed, provided such bags be transparent. Bags entirely closed must not be used for the transmission of seeds to foreign parts.

Scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the Post as samples, provided they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the Post Office. Such articles, however, must be so packed that they may be easily examined; and any packet containing such articles, which may be found to be insufficiently guarded, will not be forwarded by Post.

None of the articles named in the next preceding paragraph may be sent as patterns or samples to any place abroad, except Germany, Belgium, and the British Colonies, and not to these places when addressed via France.]

FOR PENAL CLAUSES.—See Almanac for 1871.

List of Post Offices in Canada on the 1st October, 1873.

The Offices printed in *Italics* are authorized to grant and pay Money Orders. The Offices marked * are Savings Bank Offices. The letters "W. O." following the name of a Post Office, signify "Way Office." The capital letters on the right of the County column indicate the several Provinces of the Dominion.

To meet the wishes of many of our friends in Ontario, we have, though only in the case of that Province, substituted the name of the Township in which the Post Office is situated for that of the Electoral Division. Should the name of the County also be required, reference may be made to the list of Township Municipalities (see Index).

LEGAL AND JUDICIARY.

THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the act 37 Geo. III, c. 12, which enabled the then practitioners of the law to form themselves into a society and make rules for its government. By the act of 1822, 2 Geo. IV, c. 5, "the Treasurer and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By the act of last session, 34 Vic. c. 15, the Benchers heretofore appointed from time to time by their own body, are made, exclusive of *ex officio* members, elective by the Bar. The *ex officio* consisting of the Attorney General for the time being, and all members of the Bar of Ontario who have at any time held the office of Attorney or Solicitor General of the former province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario. The elective thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the act. JOHN MACDONALD & CO.

ESTABLISHED 1849.

Continue every season to increase the turn over of

THEIR DEPARTMENTS.

Continue each season to secure in each a higher state of completeness.

Continue each season to make their business

MORE WIDELY KNOWN.

These results are reached without the aid of

COMMERCIAL TRAVELLERS.

For while it is supposed that there are some 1500 Travelling Agents in the Dominion,

THEY EMPLOY NONE.

Nor will it be thought they need them when it is known that their sales for one month (September) were over

ONE FIFTH OF A MILLION DOLLARS!!

The departments which have rendered their

HOUSE SO FAMOUS

Are their

STAPLE DEPARTMENT,

Which contains all classes of heavy SCOTCH and MANCHESTER GOODS, Irish and Scotch Linens of every class, Flannels, Blankets, Rugs, Wrappers, Woolen and Cotton Yarns, Seamless Bags, Wadding, Hop and Wool Sacking, Cheese Cloths, &c. Their

HABERDASHERY DEPARTMENT.

Noted throughout the country for its extent, completeness and variety, with having reserve stock for JOBBERS BY THE PACKAGE.

Widely known also for the large stock constantly kept of CLARK'S CELEBRATED SIX CORD CABLE LAID THREAD, (J. and J. Clark & Co., Paisley.) Usually on hand a quantity sufficient to encircle the globe. Their

DRESS GOODS DEPARTMENT,

Containing full lines of Plain Lustres, Cobourgs, Baratheas Crape Cloths, FRENCH MERINOES and all the new styles in Fancy Dress Goods of each season. Their

HOSIERY AND GLOVE DEPARTMENT,

With its Thousands of Dozens of every Size, Class, Make, Quality and Price in Ladies, Gents and Children. Their

SILK AND MANTLE DEPARTMENT,

Embracing BRITISH AND FOREIGN SILKS of every quality, Irish Poplins, Japanese Goods, all the new styles of Ladies' Jackets and Jacket Materials. Their

GENTS' FURNISHING DEPARTMENT,

All kinds of Collars, Shirts, Ties, Scarfs, Rags, &c., &c.

They have also A FLOWER AND FEATHER DEPARTMENT.

A LACE AND MUSLIN DEPARTMENT.

A VERY LARGE RIBBON DEPARTMENT.

A FANCY WOOL GOODS DEPARTMENT.

CO.

And a very large and attractive

WOOLEN DEPARTMENT,

so complete in its stock of British and Canadian Woolens that every Tailor in the Province and beyond it should visit it regularly. They also import largely with special reference to the trade of *THE LUMBERING DISTRICTS*, as well as the trade of *THE GREAT NORTH WEST*.

The rapid growth of their

ORDER DEPARTMENT,

is the best evidence that the orders entrusted to the house are well and promptly executed.

THEIR OFFICE AND WAREHOUSE

continues to receive the same watchful care as hitherto from those intrusted with the duties belonging to the management of each. They possess many advantages in connection with their

ENGLISH OFFICE,

which they could not otherwise have.

THEIR HOME BUYER

is thoroughly conversant with the best

BRITISH AND FOREIGN MARKETS.

Their CASH PAYMENTS for all purchases give them at all times the full advantage of the market.

Their few business maxims of last season having been read by so many who spoke favourably of them, they have been induced this season to add, that through many years they have observed that if men would

SUCCEED IN BUSINESS

They must be Diligent, Prudent, Economical, Courteous, Temperate and Attentive.

They should understand their business.

They should not be above their business.

They should keep their money in their business.

They should have very few business accounts. (The fewer the better,) until they find themselves in a position to buy wherever they pleased.

No outside stock will pay men as well as their business, and they should OBSTINATELY REFUSE to invest one dollar in outside operations until they are possessed of surplus means.

They should keep their stock fully and constantly insured.

They have also observed :—

That the most successful men are those who do not "make haste to be rich."

Who are not ambitious to make a great show.

Who attend more to their own business than to that of their neighbours.

Who leave Municipal Councils and Politics alone.

Who are not borrowers from their neighbours, or dealers in accommodation paper, but

Who are deeply anxious, promptly and honourably to discharge their liabilities.

They have also observed :—

That few men are benefited by inherited means.

That money which comes quickly goes quickly.

That the value of money is only understood by those who make it by patient industry, and that the grandest and most enduring business structure, is that which a man erects by his own efforts.

JOHN MACDONALD & Co., are always happy to see and do business with traders from any part of

THE DOMINION.

THE GORE DISTRICT Mutual Fire Insurance Company

HAS BEEN DOING BUSINESS ON THE MUTUAL SYSTEM for THIRTY-THREE YEARS. It undertakes the insurance of all descriptions of property, excepting certain which are extra hazardous, against loss or damage by fire or lightning. The cost of insuring with it ranges from

SIXTEEN TO TWENTY CENTS IN THE DOLLAR

less than in an ordinary proprietary company. It offers the option of insuring either on the PREMIUM NOTE or CASH PREMIUM system, and although by adopting the latter a very considerable saving can be effected, *the Premium Note system is undoubtedly the cheaper of the two.* Its special Tariff of rates for the Insurance of

ISOLATED DWELLINGS

and their contents recommends itself on the score of economy. It offers security which is ample; and by never allowing its limit of insurance on a single risk to exceed an amount which is proportionate to its assets, it is enabled to meet its engagements as they may mature and settle them with promptitude and liberality.

SEVENTY YEARS OF SUCCESS

Have proved beyond doubt, that

ROWLAND'S
MACASSAR OIL, KALYDOR, & ODONTO,

Are the three most invaluable TOILET REQUISITES extant.

The MACASSAR OIL is the best and safest RESTORE and BEAUTIFIER of the HUMAN HAIR, being perfectly free from all poisonous or mineral admixtures.

CAUTION.—Each Bottle has a Glass Stopper instead of the Cork as formerly; all with the Cork are spurious imitations. This notice is deemed necessary, as the Proprietors have received intimation that a large quantity of Counterfeit, of the most pernicious quality, has lately been sent from France and Germany to India and the Colonies, under their names.

The KALYDOR produces PURITY OF COMPLEXION, and a Softness and Delicacy of Skin.

The ODONTO preserves the TEETH, imparts a pearl-like whiteness to them, and gives a pleasing fragrance to the BREATH.

Sold by all Chemists and Perfumers, and at all Bazaars throughout India, China, and the Colonies.

CHOLERA, DIARRHŒA, SPASM. — JEREMIE'S CELEBRATED SEDATIVE AND ANTI-SPASMODIC.—Originated by Captain Jeremie, H.M.I.A. This remarkable Medicine is acknowledged by the most eminent Physicians and Surgeons to be the most valuable Remedy for DIMINISHING NERVOUS EXCITEMENT, ALLAYING PAIN, GIVING REPOSE, without the unpleasant objections attending the employment of other Sedatives. In India it is universally regarded as a specific for DIARRHŒA, CHOLERA, DYSENTERY, and NERVOUSNESS.

ETHERODINE.—ITS PROPERTIES ARE DIAPHORETIC, ANTISPASMODIC, and SEDATIVE. The important advantage over Chlorodyne, &c., is in maintaining the desired effects without augmenting the dose. Medical men in extensive practice testify to its efficacy in Coughs, Colds, Consumption, Fevers, Rheumatism, Spasm, Dysentery, Diarrhœa, &c. Will keep in any climate.

DR. JENNER'S ABSORBENT LOZENGES SPEEDILY AND EFFECTUALLY CORRECT HEARTBURN, FLATULENCE AND ACIDITY OF THE STOMACH.—From being dissolved in the mouth by the consumer, the injurious concretions of magnesia are avoided, while the grateful flavor of the Lozenge adds an allurement to its use.

BEST FOOD FOR INFANTS.—"Resembling mother's milk as closely as possible."—*Dr. H. Barker on "Right Foods."* "THE INFANT PRINCE thrives upon it as a Prince should."—*Soc. Sci. Rev.* "Highly nourishing and easily digested."—*Dr. Hassall.* No boiling or straining required. Sold in Tins.

ASTHMA AND BRONCHITIS EFFECTUALLY RELIEVED BY THE USE OF "DATURA TATULA."—"Of great efficacy in case of Asthma and Chronic Bronchitis."—*Dub. Jnl. of Med. Sci.* "The fumes cause no nausea, so that the most delicate lady can use the remedy. I have never known an instance in which relief was not obtained."—*Letter from Gen. Alexander.* As Tobacco, in Tins; Cigars and Cigarettes, in Boxes; and as Pastilles for Inhalation, in Boxes.

GENUINE PANCREATIC EMULSION.—In Diseases where Wasting, Loss of the Power of Digestion and Assimilation are prominent, the Pancreatic Emulsion and Pancreatine are the most potent remedial agents. Where Cod Liver Oil fails, or cannot be tolerated by the stomach, the Pancreatic preparations supply its place.

POLICIES PAYABLE DURING LIFE TIME.

The important and peculiar feature originally introduced by this Company, in applying the periodical Bonuses so as to make Policies payable during life, without any higher rate of Premiums being charged, has caused the success of the **BRITON MEDICAL AND GENERAL** to be almost unparalleled in the History of Life Assurance. *Life Policies on the Profit Share are payable during the lifetime of the Assured, thus rendering a Policy of Assurance a means of subsistence in old age, as well as a protection for a family, and a more valuable security to creditors in the event of an early death; and effectually meeting the often urged objection, that persons do not themselves reap the benefit of their own prudence and forethought.*

TO THE PUBLIC.

The "THE ISOLATED RISK FIRE INSURANCE Co.," having been established solely with the view of insuring against loss or damage by fire, the owners of ISOLATED and NON-HAZARDOUS properties, the Director, therefore respectfully direct the attention of Insurers to the following:—It will adjust all losses without delay, and pay over the cash AT ONCE. It being the first Stock Company to give REASONABLE RATES, and not impose on those whose properties are NON-HAZARDOUS, the burden of making up the losses by those whose properties ARE HAZARDOUS, the directors would, with every confidence, look to the public for support.

Very Reasonable Rates given on application at Head Office, or at any of the Agencies.
